

CARING FOR YOU AND YOUR TOYOTA IN AUTUMN

ALWAYS A
BETTER WAY

At Toyota, we always aim to produce the safest and most reliable cars we can. Our autumn driver's card is designed to give you a quick and easy guide to get the best out of your Toyota, with simple-to-follow instructions that will help you to maintain a safe and reliable car for many years.

AUTUMN SUN

- The sun sits noticeably lower in the sky in autumn and can be a hazard for drivers and pedestrians
- Dazzle and glare from the sun will be exaggerated by a dirty or damaged windscreen
- Make sure the windscreen is spotlessly clean inside and out and have any chips or scratches repaired
- Turn on your headlights in the twilight hours between 16:00 and 20:00, while pedestrians can alert drivers much earlier of their presence by wearing reflective clothing

WIPER BLADES MAINTENANCE

- Replace wiper blades if they smear, streak, chatter or squeak
- Check for any splits to the wiper rubbers
- Check windscreen washer reservoir levels regularly

FLOOR MATS

- It's important to check the condition of the floor mats
- Replace them if any holes, tears or damage appear
- Ensure the mats are attached using the correct fixings to avoid the risk of them moving out of place
- Tailored textile mats provide comfort and style, whilst rubber mats are hard wearing and easy to clean

LET YOUR AUTHORISED REPAIRER HELP

✓ COOLANT

Overheating can cause serious damage to your engine. We will make sure coolant levels are correct and inspect for any leaks from the system.

✓ HOSES & BELTS

We will check these are not cracked, brittle, frayed, loose or showing signs of excessive wear.

✓ AIR CONDITIONING & CABIN AIR FILTERS

For the correct heating and cooling performance along with blocking air pollutants from entering the cabin, these will be inspected to maintain interior comfort and safety.

✓ BRAKE SYSTEM

You should have your brakes inspected regularly. A Toyota Authorised Repairer will check your brake pads, discs and brake fluid level.
